

Now Hiring: Experienced Underground Utilities Equipment Operator

We are seeking an experienced **Underground Utilities Equipment Operator** to join our construction team. The ideal candidate has hands-on experience installing water, sewer, and storm utilities and safely operating heavy equipment.

Responsibilities:

- Operate excavators, backhoes, skid steers, and related equipment
- Perform trenching and excavation for underground utilities
- Install water, sewer, and storm systems per plans and grades
- Read and interpret utility plans and markings
- Follow OSHA and company safety standards

Requirements:

- 3+ years' experience in underground utilities construction
- Strong knowledge of trench safety and utility installation
- Ability to read plans and understand grades
- Valid driver's license (CDL a plus)
- Reliable, safety-focused, and team-oriented
